

From April 1, fitness test for 20 lakh heavy commercial vehicles in Gujarat

AHMEDABAD: In a move that aims to check pollution and decongest the roads, about 20 lakh heavy commercial vehicles older than 15 years will undergo a mandatory automated fitness test from April 1. If they fail to clear the test twice, they will be scrapped. The vehicle scrapping policy was announced in August 2021 by PM Narendra Modi.

Besides, about 5,000 state government vehicles that are older than 15 years will directly go to the scrapping units without undergoing the test. From June next year, all commercial vehicles - including heavy and medium ones - will be required to take the fitness test. If the state sets up 100 testing stations by

then, the automated fitness test may be extended to all the vehicles that have completed the 15-year registration cycle, including two-wheelers, said sources. By April 2024, there will be around 40 lakh heavy and medium commercial vehicles plying on the state's roads. Of the 2.50 crore vehicles registered in the state, according to the socio-economic review for 2021-22, 1.1 crore vehicles are past their 15-year life. Private vehicles account for 43% of the total registered vehicles in Gujarat. According to the new policy, heavy transport vehicles will be certified after they undergo the computerized, automated test and their report cards will be uploaded on the parivahan sewa website without any human intervention.

Relive the 90s with Zee Theatre's 'Yeh Shaadi Nahi Ho Sakti'

Ahmedabad, With a promise to present 'Har Din Naya Drama' to the television audience, Zee Theatre has announced 'Yeh Shaadi Nahi Ho Sakti', an adaptation of William Shakespeare's famous comedy 'Taming of the Shrew'. Drenched in 90s nostalgia, this visual feast is directed by cinema and theatre veteran Akarsh Khurana and stars Prajakta Koli in her teleplay debut along with Shikha Talsania, Chaitanya Sharma and Adhaar Khurana. The central conflict of the plot is that love birds Lakshman (Chaitanya Sharma) and Priya (Prajakta Koli) cannot marry each other till the latter's elder sister Pallavi (Shikha Talsania) gets married. Lakshman then devises a hilarious plan and

tries to get Pallavi hitched on an eligible NRI groom (Adhaar Khurana). What follows is absolute mayhem, endless fun, and impossible wedding moments. Elista launches premium quality

Ahmedabad, Elista, India's leading manufacturer of electronics, home appliances, IT & mobile accessories, today announced the launch of new desert coolers. These desert coolers will be available across Gujarat, Jharkhand, Bihar and Maharashtra. The regions are known for their scorching heat, and Elista has developed these coolers to provide much-needed respite to the consumer at an affordable price point. The company has added two desert coolers - Desert Snow Monk and Aurora Cool. Both these models have a one year warranty and have a large water capacity of 90 litres. Both function at 1350 rpm with a heavy-duty motor of 100 watts. The top frame has been made with toughened

glass. Pawan Kumar, CEO of Elista, says, "Elista has been a leader in the premium segment of the cooler segment. Gujarat, Maharashtra, Bihar and Jharkhand are important markets for us, and we are looking to consolidate our position in these key markets. Our desert coolers have been designed keeping in mind the weather conditions and consumer requirements in these regions. These large-capacity desert coolers offer maximum cooling and uniform airflow. We are expanding our presence in key markets and looking forward to gaining a more significant market share in tier 2 and 3 cities." (19-10)

JEE Main 2023: Over 1200 Physics Wallah students outperform

Ahmedabad, PW (PhysicsWallah), India's most affordable and accessible edtech platform, announced that over 2500 of its students scored 98 percentile and have been declared eligible for the JEE Advanced examination. Mr. Alakh Pandey, Founder and CEO, said, "It is great to see students performing remarkably in this exam. These results are a testament to students' outstanding performance, dedication, and hard work and also to the effectiveness of the personalized teaching approach used by PW. The student's success can be attributed to the undivided attention and commitment of the teachers, who continuously support and guide the students in their preparation. Those students

who couldn't make it this time should not be disheartened and keep working hard towards their goal. They should learn from their mistakes and strengthen their preparation for JEE Main 2nd Session, and I am sure their hard work will pay off." More than 490 students scored 99.5 percentile, and over 150 students scored 99.9 percentile in this exam. Among the top scorers from PW include Ramkrishna Gena (99.94 percentile), Aryan Rai (99.94 percentile), RaiShrijaAnjani (99.92 percentile), NishanJotriwal (99.91 percentile), AnubhavSaha (99.89 percentile), Aryan Jaisa (99.88 percentile). These students studied from PW's top Lakshya and Prayas Online batches for JEE Main and Advanced. (19-10)

Day temperature increases in Ahmedabad

AHMEDABAD: The maximum temperature of 33.3°C on Sunday was 3.4 degrees higher than normal, mentioned by India Meteorological Department (IMD) data. The minimum temperature of 13.1°C on the other hand was nearly normal with 0.1 degrees lower than normal temperature. "No large change in minimum temperatures during next 4-5 days over the region very likely," mentioned IMD forecast.

Across Gujarat, the minimum temperature went above 10°C, heralding the end of winter in the state. Across the state, the maximum temperatures remained above 31°C except in Dwarika and Okha. At 10.9°C, state capital Gandhinagar registered its lowest minimum temperature.

Bag snatched, man loses Rs 9 lakh in Ahmedabad

AHMEDABAD: Sardarnagar police registered a case after an unidentified person came near him and snatched a bag from Rajendrasinh Rana (55). It contained cash, gold and silver ornaments, and a mobile phone all worth Rs 9.1 lakh. Rana, a resident of Nobe Nagar, stated in his

complaint that he was passing by Sudama Park Society in the area when one unidentified person came near him and snatched his bag that contained the jewellery and Rs 40,000.

He stated that the ornaments were worth Rs 8.70 lakh. Sardarnagar police have registered a case.

EMI con: Trader sells second hand phones, loses Rs 86,000 in Ahmedabad

AHMEDABAD: A 31-year-old man from the Law Garden area of the city, who runs a shop of selling and buying second-hand cellphones, on Saturday filed a complaint with Cybercrime police stating that an unknown man

Meet husband-wife duo from Amazon's Sortion Centre in Ahmedabad

Ahmedabad, Yogesh Manubhai Khatri and Sumanben Khatri have been working alongside one another and supporting each other through thick and thin. They credit their ability to seamlessly work together as personal and professional growth and success while keeping a positive outlook on life. Yogesh and Suman met each other in 2002 while working in a textile company and decided to get married after five years of being together. Suman left her job to focus on managing the household while Yogesh continued working. However, their lives were disrupted by the COVID-19 pandemic when Yogesh lost his job. With the added pressure of supporting their 14-year-old son's education and household expenses, the couple faced the financial stress of mounting loans. To turn things around, Yogesh began searching for new job opportunities and took on odd jobs as a daily wage laborer at construction sites but that was still not enough to make ends meet. In August 2022, he came across an opportunity to join Amazon Sortion Centre as an associate and encouraged Suman to join as well. Thrilled at the opportunity to work alongside each other, Suman was eager to help her husband. In August 2022, they both started working at Amazon and finally found financial stability. (22-2)

Learn a new language to bolster productivity, here are its 5 benefits

Ahmedabad, With a fast-paced lifestyle, a common challenge faced by most of us is to keep up with our productivity goals. Knowing how productivity is a key to success in both individual and organizational contexts, National Productivity Day is celebrated on the 12th of February every year. With time, energy and attention focused on productivity, we can surely be a valuable investment of time. With applications like Duolingo gamifying the language learning process, learning a new language has never been this easy and fun. (20-4)

Cyber Criminals - Hackers on Rise

Vinod Chandrashekar Dixit
Freelance Journalist, Writer & Cartoonist
(dixitpatrakar@yahoo.in)

Don't think our lives in the digital age is alternate between cyber dangers and cyber security? Hacking is one of the most dangerous cybercrimes that has emerged in the internet age. Recently the All India Institute of Medical Sciences (AIIMS), Delhi's server was down for the first time in a row as hackers have hacked the official website of the hospital and allegedly demanded an estimated Rs 200 crore in cryptocurrencies. The AIIMS server has stored data of several VIPs, including former prime ministers, ministers, bureaucrats and judges. India's hacking ecosystem has seen manifold growth over the past few years. And, today, there are thousands of hackers that are carrying out clandestine operations but have escaped the glare of cyber security experts. Whenever the word 'Hacking' or 'Hacker' comes to our mind, the picture of the image which is created is that of an intelligent person who is criminal by nature, who attacks other computer systems, damages it, break codes and passwords, send viruses etc. Their mindset are as if the 'hackers' are the computer criminals. They have a very wrong notion in this regard and have a completely negative

attitude and utter dislike for the 'Hackers'. Hackers are very intelligent people who use their skill in a constructive and positive manner. They help the government to protect national documents of strategic importance, help organizations to protect documents and company secrets, and even sometimes help justice to meet its end by extracting out electronic evidence. Rather, these are people who help to keep computer criminals on the run. Hacking is a method of identifying weak links or holes in a computer network and then gaining unauthorised access to change the settings of the targeted network or computer system. Hacking is a derogatory phrase that is frequently associated with criminal activity.

In a recent study, it was revealed that out of 15 Indian cities, Mumbai, New Delhi, and Bengaluru have faced the maximum number of cyber attacks. India has faced a rise of 7.9% in data breaches since 2017.

In 2018, India's state-run health portal - which allows users to book online appointments at government hospitals - left exposed a part of its database. This meant that the personal details and health information of nearly two million users could have leaked. When people hear about hacking, they usually think of it as something illegal. However, that is not entirely true because, like everything else, hacking has pros and cons. For example, through ethical hacking, one can get the authorization of some system, but it is done to create a shield against the odds. Hence, ethical hackers are known as the 'white hats' as well. In any organization, ethical hackers are hired to keep the organization safe from malicious hackers. Top ethical hackers in India are making the most of this demand. Indian-based healthcare websites became a victim of cyber attack recently in 2019. As stated by US-based cyber security firms, hackers broke in and invaded a leading India-based healthcare website. The hacker stole 68 lakh records of patients as well as doctors. Security researchers had been trying to pin down the group of hackers operating under the shadow of Belltrox for years. The earliest identified victim goes back to 2017. Before the Delhi-based firm was identified, security researchers even had code words to describe what seemed to be eerily similar hacking attempts: Dark Basin hackers, mercenary armada. Cyber hacking has stolen millions from people worldwide, and not just money. People's personal information has been leaked. Hacking violates Article 21, which deals with the right to life and personal liberty, which includes the right to live in dignity, according to constitutional norms. Furthermore, hacking infringes on an individual's right to privacy, which is now a basic right. What we need is to educate employees on the emerging cyber attacks with security awareness training and keep all software and systems updated from time to time with the latest security patches. It is essential to follow basic online rules to ensure the safety of self and the organization. (B-15) Jyoti Kalash, Jyoti Kalash, Satelite, Ahmedabad - 380 015)
